DETAILED ACTION

Claim Rejections - 35 USC §102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 7-11 and 21-50, as understood by the Examiner, are rejected under 35 U.S.C. §102(e) as being anticipated by Atkinson et. al. (U.S. 2001/0039528 A1)(“Atkinson ‘528”).

Atkinson ‘528 discloses the claimed invention including a first plurality of bidders (the bidders in round 1) and a second plurality of bidders (the bidders of round 1 who make it to round two). Atkinson ‘528 also discloses how each bidder may have their bid considered one at a time. See figure 1B showing “auction feedback”. This is contacting the second plurality of bidder computers. This is based on a formula for allocating an award (see abstract). This formula determines a predefined order. Paragraph [0044] shows how the auction feedback reads on the negotiating step and the contents of the negotiations.

Claim Rejections - 35 USC §103

The 35 USC 103 rejection has been withdrawn because it is superfluous. The examiner believes the Atkinson reference is better and meets all the limitations of the recited claims.

Response to Arguments

Applicant's arguments filed 8/24/06 have been fully considered but they are not persuasive.

In regards to claim 7, the rejection has been re-worded to address the new claim limitations.

In regards to claims 22, 32, and 44, figure 1B clearly shows the negotiating step.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
